Anchoring in Geiranger - Guidelines

Deres ref Vår ref Arkiv nr Saksbehandler Dato
Geiranger Geiranger Emil Heggelund 30.04.2009

With reference to "forskrift FOR 2004-12-07, nr 1634 § 3", Kystverket has established the following guidelines for assigning anchor positions I Geiranger Fjord.

- 1. Ships anchoring south of a line between Lausneset bollard and Homlung:**
-When 2 ships anchored at the same time, total ship length not to exceed 600m
-When 3 ships anchored at the same time, total ship length not to exceed 500m
- 2. Pos 5/6: Lausneset, sway only**
- 3. Lausneset North:**
When at anchor with stern moorings, ships length not to exceed 250 metres

Assignment of anchor positions

1. Days with more than 550 metres total ship length, south of a line between Lausneset and Humlung, a pilot shall be present and in charge of directing ships to the correct anchoring position.
2. Days with 4 ships at the same time, a pilot shall always be present and in charge of directing ships to the correct anchoring positions.
Days with 3 ships at the same time, directions of anchor positions by pilot will be decided on the spot.

Emil Heggelund
Pilot Master
